

FREE support, training & resources

For mutual aid, grassroots & social action groups with Orbit Housing (Bexley)

Tempo is piloting a free light touch programme of training and peer-led support. Designed to give you the resources, skills, and networks to continue your vital work.

Local action groups have been pivotal in the Coronavirus response. With many challenges and uncertainties ahead, we can provide you with training, resources, and networks to thrive, evolve, and be sustainable.

We'll share with you our extensive experience in supporting and working with community groups, including in Bexley - one of only five areas chosen to pilot the programme. We can only offer this support to a limited number of groups. Contact us today.
