# Criteria

<https://bexley.localgreenpoints.com/charity-applications>

## Introduction

**Bexley Green Points will be shortlisting local community projects within the London Borough of Bexley as beneficiaries of the scheme. These community projects should provide tangible social and/or environmental benefits to the borough.**

Bexley Green Points is a scheme rewarding residents for their waste minimisation and recycling efforts. When residents of recycle more they earn Green Points for their Community, with 18 Communities across the borough competing to earn the most Green Points.

# Criteria – what I highlighted

- ✓ Local *Community* projects
- ✓ London Borough of *Bexley*
- ✓ Tangible *social and/or environmental benefits*.
- ✓ *properly formed* groups, within the area, that have structure, constitution and/or rules or who can demonstrate they are working towards this status.
- ✓ Must not be for-profit organisations
- ✓ *bank account* in the name of your organisation, and the account must have at least two signatures on it, elected from the Management Committee.
- ✓ *Organisation capability*; ie does the applicant organisation have the experience, skills and capacity to deliver the proposed project.

**...these should all be evidenced in  
your application somewhere!**

# Some of the questions

## Part 1

### About your organisation

Please describe what your organisation does and for whom. Include a link to your website, if possible (max. 200 words):

---

**Bear in mind the MUST haves  
and see if any of those fit here**

# Some of the questions

**Other information:**

You are welcome to attach additional information about your organisation that you feel may be of relevance such as press cuttings, awards, etc.

**What are Greenpoints looking  
for here?**

**Does this help?**

**What is too much?**

# Some of the questions

What are the benefits and impact of your organisation for the defined target area - you may want to outline the social and/or environmental benefits?

What are the changes you hope to see as a result? For instance: 'increased independence of elderly' or 'increased biodiversity in the scrubland behind our community building'.

3 outcomes might be reasonable – concise/informative balance

# Some of the questions

**If successful, please list what you would like to spend the donation on.**

The size of donation will depend on the votes you receive from residents of each Community, so we recommend that you list several areas of expenditure up to £500.

You could be getting c£500-£2,000 so what packages of items would work for £500? For instance, '£500 pays for all the costs related to 10 sessions of our mentoring programme.' This might include a proportion for the training of volunteers, management, room hire. That way if you get £1,000 you can then do 20 sessions.

# Some of the questions

The funding awarded is dependent on receiving votes from community members involved in the scheme. If selected to be one of the charities, how would you promote Bexley Green Points to your followers and supporters?

In person

Social media

Email

Posters

...any more?

# Some of the questions

**If you are successful, we will feature you on the Bexley Green Points platform.**

- Please attach to your email your logo as a .png, or .jpeg file and 500x500 pixels, or at least square.
- Please provide a summary of what you do (max 100 words):

Succinct, understandable and attractive to the public

# Benefit from FREE support until July 2022

## **1-2-1 targeted support**

One-off, or a more ongoing mentoring approach, this support is tailored to the problems you want to solve so can pinpoint solutions quickly.

## **Training**

We will be offering a range of bite size training. Keep an eye on [www.bvsc.co.uk](http://www.bvsc.co.uk) under the Impact in Action section or request in house training.

## **Resources**

Our website will be brimming over with resources that we've researched so that you don't have to. We've made a start, but keep returning as we add more.

## **Way Up Quality Assurance scheme**
