Number of Attendees Across the Sessions

Participants rated themselves out of 5 before and after training for theoretical knowledge, practical and ability to apply. We are awaiting further responses, but on average people rated themselves as moving up

**2 steps**

In summary, working with Superhighways allowed BVSC to provide specialist training that attracted a significant percentage of people who had no or little previous involvement with Impact in Action. Although we would like to see a wider range of groups accessing the training, BVSC's attendees included people from various projects who will continue to be supporting the sector into the future. Against a five point scale people generally made a 2 step progress which we are pleased with, although we are sending out reminders to fill in the survey to increase the response rate.
